THE SEABOARD EXCURSIONISTS.

Their Reception at White Sulphur Springs. Charlottsville, and Other Points.

RECEMOND, May 11.—The excursion party of western business men, after being enter-tained at White Sulpur Springs, left, eastward bound, this morning. They stopped at Staunton and Caarlottesville, and visited the State institutions at both places, including the University of Virginia, where they were treated most hospitably. The expursionists, with an escare of Richmond representatives, will arrive here about ten o'clock. There will be no formal reception to-night, but to-morrow the victors will enjoy the hospitalities of the city.

Meeting of the General Council of the Reformed Episcopal Church-Report of the General Com-

PHILADELPHIA, May 11.—In the general council of the Reformed Episcopal church, to-day, the report of the general committee, composed of the bishop of the church and others, was presented by Gavernor Woodford, and bidopted. It recommends that the presiding bishop be paid four thousand deligations of the council and the presiding bishop be paid four thousand deligation. are as a salary for the ensuing year, with one thousand dollars for traveling expenses.

The committee to whom was referred the matter of the synod of Chicago reported that said synod was legally and canonically formed, and that the bishops thereof were ommended that said election be confirmed. Governor Woodford, of New York, presented a series of resolutions amendatory of the constitution, as follows, which were adopted unanimously by a rising vote: In article 5 the words "To be styled the bishop of the synod of" to be stricken out. in article 4 the word "and," in the fourth line, to be stricken out and between the powers and duties and after the word "rules" add the words "and terms of office in any synod or other Episcopal juris-This action of the council makes those holding the Episcopal office of bishop of the Reformed charch without any territorial des-

THE METHODISTS.

onvention of the Two Factions to Dis-cuss the Question of Reunion.

BALTIMORE, May 11 .- The conventions of the Methodist church and the Methodist Protestant church, to consider a basis for re-union, met to-day—the first-named at the Green street, and the latter at the Aisquith street church. At the Methodist convention, Rev. J. Burns, of Pittsburg, was chosen temporary chairman. The roll was called, and detegates from districts in Nebraska, New York, New Jersey, California, Ohio, Indiana, Pittsburg, Michigan, Minnesota, North Carolina, Kansas, Illinois, Missouri and Iowa repended. Committees were appointed on credentials and permanent organization, and Revs. H. H. Bassett, of Chio district; T. B. Applegate, of New Jersey, and S. H. Col-heur, of Pittsburg, were appointed a committee to examine the reports of the various con-

renees on the subject of reunion.

At the Methodist Protestant Convention, held in the Aisquith street church, Judge B. S. Bibb, of Alabama, was elected temporay chairman. The roll was called, and the following conferences were represented: Alabama, Louisiana, Georgia, Maryland, Tennessee, Virginia, North Carolina and West Virginia. Thirty-one laymen and thirty-five ministers were present from the above-men-tioned conferences. Rev. Dr. Lambrence W.

Bates, of Baltimore, was elected prendent. AFTERNOON SESSION. Rev. J. J. Smith, of New York, was elected resident. The committee to examine the eports of the various conferences on the subsis of the union agreed upon at Pittsburg in October, 1875, by the commission of the two churches, and had invested the delegates to this convention with full authority to ratify the action of the Pittsburg comm After debate the report was adopted.

Adjourned until to-morrow. Gordon Guaranteed.

Washington correspondent of the New Or-ans Picayane: Senator Gordon filed with the President yesterday the testimony taken in northeastern Georgia by a commission appointed by the governor under instructions of the legislature to investigate, the misconduct of the United States marshal and internal revenue officers. The testimony shows that property was destroyed, innocent men in large numbers taken from their homes, marched hundreds of miles on foot, and after paying fees to a lawyer, who seemed to have been suggested by the government officers for this purpose, were discharged without ever having a warrant served upon them or a regular hearing of their cases. Women were insulted, and a general reign of terror inaugurated all through this part of the State. The President promised to examine into the matter, and to act promptly. General Gor-don says that this state of things was unen-durable, and its continuance would have re-

sulted in bloodshed. England and France Quarreling about the Fisheries. Another Instance of Criminal Architectural Neglect, Ignorance or Carelessness-Harrowing Details.

Chicago, May 11.—A Tribune special from Rockford, Illinois, says a pall line fallen over what this morning was a happy com-munity. The Winnebago county courthouse, which, this morning when our citizens com-menced their day's labor, was the pride of their hearts, is now a desolate ruin, a monument of criminal incompetency. Some fami-lies who bade adieu to their loved ones this morning received their corpses to-night dis-figured by the ruins from which they were drawn piecemeal. The building was not yet under roof, and the massive stone cornice, which preceded the roof, was to-day being put on. Just as the keystone was being \$161,020; value of depots, buildings and grounds, \$9000; of machine-shop, \$840; of other property, \$2085; of rolling-stock, \$22,-

> walls of the structure came crushing down with A TERRIBLE CRASH that was heard nearly a mile away. Afbrief escription of the structure will aid in understanding the accident. The style of the building is French venetian of the renaissance, designed by Henry L. May, of Chicago, and the contract for building same was let to W. D. Richardson, of Springfield, who, in the spring of 1876, began work. It has two pavilions, and a center dome over the front participation. entrance. The two pavilions each rise about thirty feet above the level of the cornice. The dome is one hundred and nineteen feet from dome is one hundred and nineteen feet from the ground, and is supported by the two front walls on the north side and two iron columns, ten to twelve inches in diameter, on the inner side. These columns rest eter, on the inner side. These columns rest upon a brick wall, going up from the ground-floor to the floor of the court-room. The walls were about thirty feet high, and, it appears,

ENTIRELY INADEQUATE to hold the immense weight of iron pillars and the massive masonry of the dome which rested upon the pillars. Upon the top of the iron columns was a wrought iron girder, upon which was laid the veneer and brick of the dome. It appears that the lower brick walls were crushed by the weight of the upper masonry, and crumbled like so much rotten mortar, bringing with it the interior of the building, taking all the rafters, the corrugated iron ceiling of every room, with its concrete filling. The iron joist and the scaffolding came

bringing with it nearly all the workmen who were operating upon the top of the building. At the time of the accident there were from are the only ones furnished the assessors that are properly certifled to, in compliance with twenty to twenty-five men at work. The ac-cident happened at precisely half-past eleven cident happened at precisely half-past eleven o'clock this forenoon. The whole massive stone top of the dome fell with a terrific erash toward State street. A man named Flanagan, who was just putting in the keystone of the final cornice, jumped for the guyrope of the big derrick in front, but missing his aim fell a distance of one hundred and twenty feet to the ground, and was

DASHED TO PIECES. At this time but few persons were upon the scene. The mass of human beings—with the exception of four or five who jumped from the windows—fell inside the tottering walls and were baried in the debris. The whole structure looked as though it would fall, and those assembled were appalled and knew not what to do. To go near enough to the structure to rescue those mangled and bleeding in the ruins was hazardous in the extreme, but brave men went fearlessly to work, before the dust cleared away, and commenced to ex-

tricate

Indescribable horrors ensued, the men lay terribly mutilated beneath those rocks, shricking for assistance that was only rendered at the risk of the bystander's lives. One unfortunate man, named William Gloss, was extri-cated, but one of his legs was left beneath a ponderous stone and he soon expired in great agony as he lay upon the greensward in front of the courthouse. A negro jumped from a window sixty feet high from the ground, and though badly injured, will probably recover. Within ten minutes after the disaster, no less than four bodies were recovered by the almost superhuman efforts of the immense crowd that quickly gathered. The city surgeons were promptly on hand, rendering great aid to the wounded, who were carried on stretchers to the nearest hotels. A Swede named Andrew Bildahl had his head split open, but the wound was closed and the vic-

tim taken home, and he may live. THE ANGUISH OF THE LIVING was heartrending. The workmen's wives ject of reunion reported that a majority of and mothers were soon on the spot. The air the annual conferences had indorsed the was filled with sobs, wailings and moanings, and the on-looker was sickened by the sights on every hand.

THE VICTIMS.

A REVOLT IN THE CRIMEA. VIENNA, May 11.—We hear from Jassy that a revolt has broken out in the Crimea. The Tartars have occupied the road from Simferopol. The Jews in Jassy have been warned that if they continue the prayers in their synagogues for the success of the Turk they will be saverely punished.

HEAVY MOVEMENTS OF THE RUSSIANS. LONDON, May 12 .- A dispatch from Buka rest remarks that the heavy movement of Russian troops toward Braila indicates the purpose of the occupancy of a greater part or the whole of the Roumanian bank of the Danube. This will prove perplexing to the Turks, as they cannot oppose an equal force at all points and they must leave some laced in the dome of the main pavilion the brick work between the iron and stone gave way, and the entire dome and the interior at all points, and they must leave some places vulnerable to the sudden concentration of the Russians for the passage of the river The movement of the Turkish troops Dobradscha is suggestive of the intention of retiring the force there to the second line of defense, leaving the crossing of the Danube comparatively unopposed there.

THE RUSSIAN ATTEMPT TO CROSS THE DANUBE A DISASTROUS FAILURE, LONDON, May 11.—Intelligence has been received from Salina that on Wednesday the bridge was broken and a large number of Russians were killed and captured. The Russians were completely defeated.

THE DERBY NOTE PLEASES THE SULTAN. CONSTANTINOPLE, May 11. The sultan is much pleased with Earl Derby's reply to Prince Gortschakoff's circular, and has or-dered the Porte to thank the English govern-ment. STILL DISCUSSING THE WAR IN THE BRITISH

PARLIAMENT. London, May 11.—In the house of com-mons, this evening, Mr. Gladstone presented a petition, signed by a majority of the fjunior fellows of Trinity college, Cambridge versity, deprecating the calamity of war, and saying the peace of the empire cannot be maintained so long as the Ottoman empire exists in its present form. The debate on the Eastern question was then resumed. Mr. Bourke said Mr. Gladstone's attack on the government was unjustifiable. The govern ment wish to maintain a strict neutrality, but it cannot countenance the views of the ex-tremists about the dismemberment of Turkey or the policy of coercion. There was not the slightest reason to suppose that Austria and Germany would join in such an undertaking. Mr. Bourke denied that England had destroyed European concert. MOVEMENTS OF THE RUSSIAN DANUBE

COLUMN. VIENNA, May 11.—The opinion on the spot seems to be that the Russian reconnoitering expedition to Ghiacett is the precursor of a serious attempt to cross over in force and capture Matchin. A Bukarest correspondent reports that the

Russian commanders are eviddently taking every precaution to bring their armies to the Danube without fatiguing the men or animals. The condition of the troops show that their efforts are successful. A majority of the cavalry passed through Bukarest on foot, leading their horses

A TURKISH MONITOR SUNK. LONDON, May 11.-A Bukarest dispatch says the largest Turkish monitor on the Dan-ube, which was anchored before Braila, was sunk by a fire from the Russian batteries this (Friday) afternoon. Further particulars of Thursday's artillery engagement between the Roumanian battery,

near Oltenitza, and the Turkish battery in front of the town of Turtukai, supported by two monitors, state that Turtukai was ignited by shells and twice displayed the white flag. One monitor was seriously damaged. The Turks, in consequence of the conflagration, ceased firing and withdrew their battery during the night. CONDENSED WAR NEWS.

LONDON, May 11 .- A dispatch from Tehe ran says that a Russian military expedition started from Fort Krasnovodsk, on the east coast of the Caspian sea, going toward the country of the Akhal Turcomans, who recently tendered their allegiance to Persia.
